To: Whom it may Concern

Regarding: Halfacre Construction Company

Halfacre Construction Company was engaged as the general contractor for the construction of Temple Sinai's new facility at 4631 South Lockwood Ridge Road, Sarasota, Florida 34231 on September 9, 2004 under a guaranteed maximum contract.

We found Halfacre Construction to be a highly ethical, competent and effective contractor. The work was completed within the contract amount in a very workmanlike manner. The completion date was delayed somewhat from the promised date through no fault of the contractor. The project was built during the booming construction period and construction supplies and material were in short supply. Halfacre was effective in dealing with these problems and minimized the delay to the completion of our project.

The workmanship was first rate, particularly in the "finish" area, and furthermore, Halfacre Construction was extremely responsive in handling any and all problems encountered during the warranty period.

I would highly recommend Halfacre Construction Company for any building projects that fit within their size capability and would most certainly put them at the top of the list for any additional construction projects considered by Temple Sinai.

Very truly yours,

Marvin S. Rosen
